Lifestyle & Prosperity

Dear Reader!

We are proud to show you the business presentation of FreedomXpress, through which we now invite you to participate in building the next online commercial giant of the internet, and thereby to experience what the truly free and prospering life is about!

If you want it too, a new chapter can start in your life now, which will be about financial independence, freedom and personal fulfilment.

From our company's side everything is set for the beginning of a fruitful partnership and, together with you, for the completion of our mission, which has been formulated as follows:

„Our mission is to create a free and prospering life for all our partners and their families, and to prepare them for also being able to complete our mission in others' life“

It is very likely that everybody knows these companies and uses their services even on a daily basis, and what is more, we almost certainly recommended them to others before, in spite of the fact that they have never paid a cent for this activity of ours, although it was us users who made these companies great.

In the business model of FreedomXpress the users play the key role, since the company chose network marketing as a tool to establish its business platforms, and in that context the company reallocates 66% of its total trade flow to those who participate in promoting its divisions.

How much business potential does this mean to you? For the answer we need to know how big the potential of online commerce is.

Market Potential

In 1995 only 1% of the world's population had internet access

Today 55% of the world's population has internet access

This number grows annually by nearly 10%

The number of people using the internet on a daily basis is more than **4 billion**

The target audience of FreedomXpress is **55% of the world's population**

In 2017 online commerce reached 2300 billion dollars in annual turnover

The online trading market grows annually by approximately 1000 billion dollars

The online trade flow of the USA alone is 500 billion dollars per year

The online global trade flow of this year is expected to be **2800 billion USD**

You can build your FreedomXpress business without geographical constraints, **100% online**

On the company's online trading platform, we have combined successful commercial activities that have already made other companies individually market leaders in the past. Our goal is to leverage the power of network marketing to create an online commerce community where users as referrers and customers participate. Because of the financial benefits that our customers and their referrals have for using and promoting a common online commerce site, we can expect stable and growing traffic, some of which is distributed by our company to the promoters of the site. The company plans to continue expanding its online platform by adding new business divisions to the platform, which will provide a new source of revenue for network builders from new industry traffic. Take part in everyday purchases of masses of people passively for the rest of our lives? Yes, this is indeed a real business opportunity!

DealKodex – Always make your purchases with a discount

The first division of our company's online platform is based on the development of a loyalty card system that helps us make our everyday purchases cheaper with a card ordered from the company. Signing up for the system is quick, easy and free, all you need is a referral link. You can then choose from our webstore the most appropriate one of our business packages for 100% off the total purchase value of the business partner companies as described in our Terms of Use. You will find a list of companies at www.dealkodex.com. Partner companies can sign up for free on DealKodex in exchange for a permanent discount they offer. This solution is mutually beneficial for both service providers and customers. The biggest cost for businesses is the cost of advertising and marketing, with uncertain returns. You can send your offers to hundreds of thousands of potential customers for free. In return, buyers will always be able to buy better than market prices from a guaranteed and reliable source.

To qualify for an on-site discount, it is enough to show the card and only pay the discounted price. Our online partners pay the full purchase price and we will credit the discount back to your online balance!

1% of the e-commerce market of the world

Currently the fastest growing industry of the world is e-commerce. The e-commerce revenues have been increasing by more than 1000 billion dollars globally from year to year. FreedomXpress Global is determined to carve out a significant slice of this staggering trade flow and to share it with the members of our network through a concept that is unprecedented in the network marketing industry!

The goal of our company is to have influence over 1% of the global e-commerce flows by utilizing the strength of our drop shipping business, and through achieving this objective to become the world's No 1 network marketing company.

How does drop shipping work?

Why is this more favourable to our members than building a traditional webshop?

Business model of the drop shipping webshop

The reason behind the success and spread of the drop shipping business model lies in being able to operate your own e-commerce enterprise without having to fulfil all the previously listed conditions.

As an affiliate partner you can submit your application to the affiliate program of the company's own international webshop, which allows the usage of the inventory of an international webshop, you will not have to deal with either logistics or invoicing, and the company handles the guarantee and customer support cases as well.

All you have to do is to promote the products and services of the webshop like they were your own by using your affiliate link, while in the case of a purchase Zamnia – the webshop of the company – provides every infrastructure issues and pays a commission for our affiliate activities, depending on the realized trade flow.

Isn't it fantastic? An own webshop without risks and capital needs!

Redeem your own Drop shipping license and profit passively from the trade flow of hundreds or even thousands of dropshippers

FreedomXpress makes it possible for you for a single fee to redeem your drop shipping license for ZAMNIA, the company's international webshop. With the help of our various drop shipping licenses you can benefit in a completely passive way from the commissions for the trade flows of those affiliate partners that were recruited to our drop shipping business line directly by you or through the structure created by you.

Our affiliate partners can only receive a profit after the trading margins of their own trade flows, however, those who redeem their drop shipping license can benefit up to 8 unilevel levels from the passive revenues produced by the international "miniature webshop chain" established via the affiliate partners and other license owners!

Have you ever imagined what it would be like to benefit from the trade flow of several hundred or even thousand webshops?
That is what our drop shipping business line can offer you!

There is no monthly fee or renewal fee!
